Assessment 3 Brief	
Assessment Overview	**Key Information**
Subject Title	Industry Action Learning Project
Subject Code	WIL8011A
Assessment Title	Critical Personal Development Reflection
Subject Learning Outcomes	In this third assessment, you will be tested if you have successfully met the following Subject Learning Outcomes (SLOs): a.) Apply management skills and advanced knowledge that contribute to resolving a complex business challenge or dilemma in professional practice. c.) Effectively communicate using a range of media to a diverse group of stakeholders with authority. d.) Critically reflect on the skills required to function effectively in a senior management role in a selected industry sector.
Assessment Type	Individual
Weighting	30% **Assessment 3 is a hurdle assessment:** a student is required to pass Assessment 3 with a minimum mark of 50% to pass the subject. If a student fails Assessment 3 then they will fail the subject regardless of the marks received in Assessment 1 and Assessment 2. To pass Assessment 3, the student will need to ensure their assessment content meets the 3 subject learning outcomes specified in the assessment information and the assessment brief.
Word Count / Length Submissions	Personal Development Reflection (1500-word + / - 10%). The assessment must be done in Canvas Professional Portfolio.
Due date	Personal Development Reflection due week 12. NOTE: late submission or non-submission may attract penalties. Refer to *Assessment, Submission, Extension and Feedback Procedures* and *Grading Policy* for details.
Submission Type/Format	The type of assessment you will be completing is a: • Individual written summary of your personal development.

Assessment Details	Instructions
Assessment Overview	During this ALP you will be encouraged to reflect on your learning and its impact. Reflection, as a technique for aiding and reinforcing learning, is a powerful tool used in professional development. As Jack Mezirow (1997:5), who transformed the field of adult education, points out: *"A defining condition of being human is that we have to understand the meaning of our experience."* The work in neuroscience and specifically Carol Dweck (2006), who studies human motivation and the growth mindset, shows us that we can get smarter. The growth mindset, which describes the underlying beliefs people have about learning and intelligence, shows that when one makes an effort, it leads to higher achievement. In this subject you will be encouraged during class and on your own to practice reflection.
Assessment Instructions	Undertake the commitment during the 10 weeks to create time to pause and think about each step in the action learning process; consider what you have learned and how the learning applies to you. Boshyk (2011:17-18) identified seven dimensions of learning, which are key to an action learning process. These include: 1. The big picture: What do I want to/did I learn about the external environment of my business, industry, country, and region? (About politics, economics, society and culture, technology, and other matters outside of my business). 2. My Organisation: What do I want to /did I learn about my organisation (its culture, way of doing business, customer relations, values and processes). 3. My Team: What do I want to/did I learn about my team effectiveness? 4. Myself: What do I want to/did I learn about myself? About my values? 5. How I learn: What did I learn about how I learn? 6. What can be used in another context: From my learning, what can I apply in another situation? 7. Who needs to know about my learning? Who else needs to know about all of this learning? Using Boshyk's (2011) dimensions as a guideline, write down your learnings during the ALP. At the end of every week ask yourself the questions in these seven dimensions. A suggestion it to write these learning in a journal. A learning journal is a tool that can be used to record your thinking and provide you with an opportunity to self-assess. As part your assignment submit two examples of your journaling in an appendix where you have applied these seven dimensions. You can refer to all your journal entries when you are writing your final critical reflection Reflective writing in a journal is essentially a piece of writing that contains your views and feelings about a particular subject. The goal is not only to record what you learnt, but to convey any personal experiences and findings that resulted. Your task in assignment two is to submit a critical reflection of your personal development using Driscoll's (1994) model of:

	• What? (Depth of reflection) • So what? (Depth of reflection) • Now what? (Required components). • Appendix (examples of the seven learning dimensions) The rubric is included below.
Submission Details	**Instructions**

Submission Guidelines for written assignments	On completion of your written assessments:
	• Submit your document as a word document to the assessment submission link in Moodle.
	• Your assessment will be marked 'non-genuine' if it has:
	  ○ A cover page only.
	  ○ An irrelevant or empty document.
	  ○ An assessment template or brief with no answers.
	• Include a signed ICMS cover sheet.
	• If you're permitted to use AI in your assessment, fill in the AI Declaration form, sign your name and attach to the assessment.
	
	Note: You must make a genuine attempt and submit all assessment tasks that are set for a subject, otherwise you may not have achieved all the learning outcomes satisfactorily to pass the subject.

Resources	These assignments are practical work-based assignments however should you cite another person's work please apply the academic guidelines for in-text and referencing.

	• You are recommended to use the ICMS Library databases (EBSCO Discovery Service) to find academic peer-reviewed sources of information. • Referencing non-credible sources of information such as Wikipedia, blogs and personal websites, social media posts, Internet forums or discussion boards, self-published books, advertisements, unverified news websites or the like, will not be counted as references. • For in-text citation and referencing, follow the ICMS style guide available on Moodle. 1. Boshyk, Y. (2011). *Business-driven action learning today*. Pedler, M. (Ed.), Action Learning in Practice, 4th ed., Gower, Surrey. 2. Driscoll, J. (2007). *Practising clinical supervision: a reflective approach for healthcare professionals*. 2nd edn. Edinburgh: Bailliere Tindall Elsevier. 3. Dweck, C. S. (2006). *Mindset: The new psychology of success.* Random House. 4. Mezirow, J. (1997). *Transformative Learning: Theory to Practice.* New Directions for Adult and Continuing Education, 74, 5-1.
Guidance for Success	For academic support and recommendations on how to improve your written work, submit a draft copy of your assessment to Studiosity. Further academic guidance can be found in the ICMS Student Success Centre: https://www.icms.edu.au/future-students/learning-and-english-assistance/ You may also contact the lecturer if you need further information.
Academic Integrity	It is important that you work individually on your assessments unless it is a group assessment and adhere to the institution's policies on Academic Integrity. Any confirmed breaches are deemed academic misconduct and will attract an appropriate penalty according to the ICMS *Academic Integrity Policy* and *Procedures*. Further details of what constitutes academic misconduct are laid out in the ICMS Academic Integrity Module and on the Assessment Cover sheet which you must sign and submit as part of your assessment submission.
Assessment feedback, review or appeals	In accordance with the *Student Review of Assessment Results Procedures*, all students have the right to request a review of an assessment decision in relation to how the assessment was conducted and the outcome of the assessment. Applications to review assessment result must be lodged within **10** working days of the formal publication or notification of the result of the assessment. If you would like to request a review of your results or if you have any concerns about your results, contact your lecturer or Program Manager.

Assessment 3 Rubric

Personal Development Summary

Name of student				
Criteria	Exceeds expectations (8-10)	Meets expectations (4-7)	Below expectations (1-3)	Mark
Depth of Reflection (What & So What)	Response demonstrates an in-depth reflection on, and personalization of, the learning throughout the ALP. Viewpoints and interpretations are insightful and well supported. Clear, detailed examples are provided, as applicable.	Response demonstrates a general reflection on, and personalization of, the learning throughout the ALP. Viewpoints and interpretations are supported. Appropriate examples are provided, as applicable.	Response demonstrates a minimal reflection on, and personalization of, the learning throughout the ALP. Viewpoints and interpretations are unsupported or supported with flawed arguments. Examples, when applicable, are not provided or are irrelevant to the assignment.	15
Required Components (Now what)	Response shows strong evidence of practical examples of what happened and a clear plan of intended future practice.	Response shows evidence of practical examples of what happened and a plan of intended future practice.	Response shows little evidence of practical examples of what happened and a vague plan of intended future practice.	10
Structure and technical requirements of the report	Writing is clear, concise, and well organized with excellent sentence/paragraph construction. Thoughts are expressed in a coherent and logical manner. Application of the appendices is thorough.	Writing is mostly clear, concise, and well organized with good sentence/paragraph construction. Thoughts are expressed in a coherent and logical manner. syntax errors per page of writing. Application of appendices is adequate.	Writing is unclear and/or disorganized. Thoughts are not expressed in a logical manner. The appendices do not link to the content.	5
